China Working Group: [REDACTED]

25X1

- An initial consolidated study draft has been completed after extensive rework and reorganization of the inputs that were provided on 24 February by the three separate subgroups. [REDACTED] was particularly helpful in preparing this consolidated draft, which will shortly be distributed to Working Group members for comment--possibly as early as the afternoon of 21 March.
- The full Working Group will convene on 3 April 1984, at which time members will submit written comments on the initial consolidated draft. These comments will be reviewed by the subgroup chairmen, Working Group Chairman, and CIPC staff and incorporated in the revised draft. The Working Group is also planning to reconvene on 17 April to address the revised draft and to identify any unresolved points of contention that still exist at that time.

DABMs Working Group: [REDACTED]

25X1

- Work has focused on smoothing both the front end and the main body of the BMD report. On Thursday, 22 March, the Working Group will meet to give the draft a final perusal.

WSSIC's Mobile Missile Working Group: [REDACTED]

25X1

- The Working Group held a final session on Tuesday, 20 March, prior to forwarding their report to [REDACTED]. CIPC had no comments on the final draft and did not attend that session, however, we did have the opportunity to read the report and it is a marked improvement over the previous version.
